Stronger Signal, Wider Coverage

Equipped with four adjustable external high-gain antennas, the S12 helps boost Wi-Fi signal strength, expand coverage, and reduce dead zones for more consistent performance. Adjustable antenna angles let you fine-tune reception and optimize speeds across your devices.

Reliable Wired Connections

With a Gigabit WAN port and 3× Gigabit LAN ports, the S12 provides fast and stable wired connections for your wired devices.

Improve Network Efficiency

Equipped with MU-MIMO technology, the S12 keeps your Wi-Fi running smoothly by reducing congestion, connecting more devices, and improving network efficiency.

Enhanced Network Security

The S12 provides advanced security to protect your network and personal data, featuring WPA3 encryption and EN 18031 certification to keep your network more secure.

Multi-Mode Networking

Designed for flexible networking, it supports Router, Bridge, and Repeater modes, giving you the flexibility to customize your network setup, expand wireless coverage, and deliver stable Wi-Fi where you need it most.

Router Mode
Connects to your modem to create and
manage your network.

Bridge Mode
Adds Wi-Fi to your wired network
as a wireless access point.

Repeater Mode

Repeats your Wi-Fi signal to expand

your wireless coverage.

Simple Setup and Management

Set up and manage your network in minutes with the D-Link SetupGo app, while automatic Firmware Over-The-Air (FOTA) updates keep your router secure and up to date.
