MSI Power Link, Tool-less Design, PCR, MSI Power Meter

Tool-less & Cable Organizer

Three-step toolless design enables quick component upgrades and routine servicing, saving time and simplifying maintenance.

The built-in **Cable Organizer** prevents accidental disconnections and ensures stable connections even in tight or vibration-prone environments.

MSI Power Link

The MSI Power Link allows the **power button of MSI-selected monitors** to turn on/off the Cubi NUC AI+ Series.

The chassis is **VESA-mountable** (standard 100x100 & 75x75), transforming a standard compact desktop layout into an ultra-minimalist, distraction-free environment.

External power switch (optional) enhances the convenience of turning on the computer.

Sustainable Design

Made with **PCR (Post-consumer Recycled)** plastic materials.

Reduce waste by using a recycled molded pulp tray packing design.

Manufactured with 99% of renewable energy in factory.

MSI Power Meter & MSI AI Engine

Power Meter enables one-click power saving, carbon emission calculation & electricity cost estimation.

MSI AI Engine offers multiple optimizations to reduce workload.
