1ms (GtG) & taux de rafraîchissement 144 Hz

Lightning-Fast Display, Seamless Gameplay

Experience the thrill of ultra-responsive 1ms (GtG) response time and a blazing 144Hz refresh rate, minimising reverse ghosting for crystal-clear, fluid visuals. Immerse yourself in captivating gameplay with every frame

Smooth motion, infinite play

Minimise tears and lags with AMD FreeSync™ Premium technology and NVIDIA-tested, officially validated G-SYNC® compatibility on a 4K gaming monitor. Experience significantly reduced screen tearing and stuttering for smooth, crystal-clear gameplay.

webOS 24 with LG AI

The first webOS-powered smart gaming monitor

Introducing our first webOS-powered smart gaming monitor with LG AI, delivering vivid picture quality and immersive sound on your personal screen. Relax during game breaks with effortless 4K streaming, including free LG Channels and numerous streaming options. Plus, access high-performance cloud gaming without a separate PC or console, all easily controlled with the remote for added convenience.

AI Picture

Sharper characters, enhanced realism

With AI Picture, it delivers lifelike game visuals that highlight faces and bodies, reduced noise, and added depth. Every detail, from subtle expressions to enemy movements, are easy to catch, ensuring a focused screen for total immersion in gaming or streaming.

Dynamic Tone Mapping

Unfold every scene in vivid detail

Enjoy visuals as they were meant to be seen, with Dynamic Tone Mapping adjusting brightness and contrast for optimal detail and realism. Movies and games come alive with rich immersion and consistent quality across all content.

AI Personalised Picture Wizard

Crafted for your taste

Pick an image you like, and AI Personalised Picture Wizard will find your perfect match from 85 million choices, saving it to your profile. Get ready to level up your gaming and video experience with a look that's uniquely you.

AI Sound

Immersive sound fills your arena

Detects your room and delivers perfectly tuned audio through a simulated 9.1 channel setup, pinpointing sound locations for a tactical edge without the need for extra speakers or headsets. Also, it distinguishes the gamer's voice from ambient sound, adjusting voice levels and clarity to keep you focused on your game.

Compact and sleek, from every angle

Step into a sleek, stylish gaming sanctuary with a white gaming monitor setup. The pivot with vertical mode does more than simply rotate the screen to portrait, it optimises vertical content for a short-form experience. The compact L-stand also minimises desk space usage.

Power, connect, and simplify

Connect your laptop to the monitor with a USB-C cable for up to 65W power delivery, eliminating the need for a separate adapter. Enjoy 4K UHD resolution and a 144Hz refresh rate via USB-C, DP 1.4, or HDMI 2.1, helping keep your organized desk.

LG Switch app

Switch swiftly

The LG Switch app optimises your monitor for both work and entertainment. You can easily split the display into 6 sections, change the theme design, or launch a video call platform with a mapped hotkey. Plus, you can quickly navigate and select smart functions with the keyboard and mouse, while seamlessly switching between your PC and webOS using shortcut keys.
