ONIKUMA DM10 Wireless Mouse (White)

Model: DM10 White

Manufacturer: ONIKUMA

EAN: 6972470565027

Product Code: 1182684

R1,460

ONIKUMA DM10 Wireless Mouse (White)

The ONIKUMA DM10 is a white gaming mouse equipped with a PAW3311 sensor, sensitivity adjustment up to 24,000 DPI, a refresh rate of up to 1,000 Hz, and three connection modes. The model features a 500 mAh battery, a built-in display showing key performance metrics, and a magnetic charging dock with RGB backlighting. Weighing approximately 68 ± 5 g and featuring an ergonomically contoured body, it facilitates quick movements, making the mouse ideal for gaming as well as everyday computer use.

Three Connection Methods

The ONIKUMA DM10 supports a wired connection via USB-C, a 2.4 GHz wireless connection using a USB receiver, and an additional Bluetooth wireless mode. Users can therefore choose the connection method that best suits their device and current needs. A transmission range of approximately 10 meters ensures the freedom to use the mouse wirelessly.

Adjustable up to 24,000 DPI and 1,000 Hz polling rate

The PAW3311 sensor, combined with six sensitivity levels, allows you to tailor the mouse’s performance to various applications, with a maximum sensitivity of 24,000 DPI. Lower sensitivity is useful for precise movements, while higher sensitivity allows you to move the cursor quickly with minimal hand movement. A refresh rate of up to 1,000 Hz ensures efficient transmission of mouse position data to the computer, promoting smooth and responsive gameplay.

Parameter Display Screen

At the top of the ONIKUMA DM10 is a screen that displays key information about the device’s operation directly on the mouse. It allows you to check, among other things, the set DPI value, refresh rate, current connection mode, and battery charge level. This lets you quickly monitor the device’s settings and status without having to open the software every time.

Magnetic Charging Station with RGB

The mouse comes with a magnetic charging station that allows you to conveniently recharge the 500 mAh battery. Simply place the mouse on the station, so that after you finish working or gaming, the device has its own permanent spot on your desk and is ready for the next use. The station is also equipped with RGB lighting, which adds a visual touch to your computer setup.

Lightweight and ergonomically contoured body

Weighing approximately 68 ± 5 g, the ONIKUMA DM10 is easy to maneuver, especially during dynamic movements in games. Its profile is designed for medium and larger hands and popular grip styles, such as palm grip, claw grip, and fingertip grip. The mouse is compatible with Windows systems, and its technical specifications include an operating voltage of 3.7 V DC and an operating current of ≤18 mA.

Included in the set

- ONIKUMA DM10 wireless mouse
- RGB magnetic charging station
