Manufacturer: GIGABYTE

Product Code: 1183751

R104,097

The AORUS PRIME 5 is a high-performance gaming desktop built for next-generation power and reliability. Equipped with an AMD Ryzen 7 9800X3D processor and NVIDIA graphics card, it delivers exceptional speed, smooth gameplay, and advanced AI capabilities. With 32GB DDR5 memory, a 2TB Gen4 SSD, and an efficient liquid cooling system, it ensures fast responsiveness and stable performance for gaming, streaming, and multitasking. Designed with premium components and modern connectivity, it offers a complete, ready-to-play experience right out of the box.
