

LG 55VM5R-H video wall display LCD Indoor

Model: 55VM5R-H

Manufacturer: LG ELECTRONICS

EAN: 8806096853696

Product Code: 1184123

R53,925

Seamless Wide Vision, Smarter Video Wall

Seamless Large Screens with an Extreme-Narrow Bezel

The ultra-slim bezel, with its 1.7 mm BtoB (Panel Bezel to Panel Bezel), drastically reduces bezel interference and delivers immersive, seamless content across assembled video wall screens.

Image Sync Enhancement

The VM5R-H includes an image improvement algorithm that can synchronize fast-moving video content across tiled displays during video playback. Objects positioned along bezel boundaries are adjusted for a seamless viewing experience.

Super Wide Viewing Angle

The VM5R-H can be viewed from virtually any angle, delivering vivid images across the entire display without distortion even when positioned above eye level. It captivates the attention of viewers with lifelike images, regardless of their viewing position.

Easy Color Adjustment

The color temperature of the display can be adjusted in increments of 100K simply by using a remote control, allowing you to easily set the color temperature that perfectly suits your content.

Simple White Balance Adjustment

The VM5R-H allows you to achieve more detailed and precise white balance adjustment simply by tuning individual R/G/B values or the IRE Scale.

High-Performance with LG webOS 6.1

LG webOS 6.1 is available on the VM5R-H for smooth execution of multiple tasks. The LG webOS smart signage platform enhances user convenience with an intuitive GUI*.

* GUI : Graphical User Interface

Flexible Content Creation

Four different videos can be played simultaneously via web apps, with various animation effects, such as scaling or rotating, applied using CSS (Cascading Style Sheets) transition effects. Real-time streaming is also available, providing flexibility to organize and diversify content free from capacity limits.

Durability that Provides Reliability

Optimized for business environments, the VM5R-H is protected against salt, dust, iron powder, and humidity thanks to conformal partial coating on the power board, allowing for stable operation. In addition, its customer-centric feature, such as Shock Monitoring, provides both reliability and

satisfaction, ensuring the durability of the video wall.

LG ConnectedCare

Maintenance is easy and fast with the optional LG ConnectedCare service, a cloud service solution provided by LG. It remotely manages the status of displays in client workplaces for fault diagnosis and remote-control services, supporting the stable operation of clients' businesses.

Daisy Chain Capability

A LAN daisy chain allows you to control and monitor video walls and even update the firmware at once. Also, through UHD daisy chain using HDMI and DisplayPort, you can easily set up a UHD video wall without the need for DisplayPort MST.

IP5x Certified Design

With the IP5x Dust-Proof Certification, the product is protected from dust, reducing the risk of performance degradation.
