

UBIQUITI USW-WAN-RJ45 10G WAN SWITCH

Model: USW-WAN-RJ45

Manufacturer: UBIQUITI NETWORKS

EAN: 810084699935

Product Code: 1184143

R7,657

The Ubiquiti UniFi USW-WAN-RJ45 hub and switch is designed to provide reliable networking solutions with a range of features. Operating efficiently in temperatures from -5°C to 40°C, it supports diverse environments while maintaining optimal performance. With a switching capacity of 20 Gbps and non-blocking switching throughput of 10 Gbps, this equipment ensures seamless data transfer and connectivity. Its rack-mountable design includes a rack mounting kit and is compliant with FCC, IC, and NDAA standards, making it suitable for various applications.

Equipped with a variety of ports including one 10/100/1000 Base-T port and three 100/1000/2.5G/5G/10G ports, the Ubiquiti UniFi USW-WAN-RJ45 offers flexibility and speed. The internal power supply features 1+1 redundancy for enhanced reliability, and the housing is constructed from SGCC steel for durability. Users can monitor system status and Ethernet link/activity through built-in indicators, ensuring easy management and operation.
