TP-Link XZ000-G6 network terminal/unit Optical network terminal (ONT)

Model: XZ000-G6

Manufacturer: TP-LINK

EAN: 1210002607698

Product Code: 1184446

R823

Gig+ Fiber Access

Crafted with GPON + EPON dual-mode capability, XZ000-G6 delivers up to 2.5 Gbps of internet access via GPON, catering to your high-speed home networking needs, while the EPON mode improves flexibility with automatic detection and switch.

Gigabit Wired Connectivity

XZ000-G6 features a gigabit Ethernet LAN port that utilizes XPON technology, delivering transmission speeds of up to 1 Gbps for high-speed internet access and a flawless streaming experience—ideal for FTTH (Fiber to the Home) applications.

Centralized Remote Management

Service providers can remotely configure and manage devices using the OMCI (ONU Management Control Interface) protocol, streamlining operations and delivering a smoother service experience for home users.

Backed by a Comprehensive FTTH
(Fiber-to-the-Home) Solution

Under the Aginet flagship, TP-Link offers comprehensive one-stop solutions for FTTH applications to service providers, whether based on GPON or XGS-PON. Service providers can roll out their service plans with reduced operation and maintenance costs and increase ARPU with improved user satisfaction, while home users can enjoy a better networking experience.
