The Lanberg RSFE-16P-2C-250 is designed for efficient networking with its comprehensive features, offering reliable performance in a compact form factor. This rack-mountable switch supports up to 16 PoE+ ports, providing up to 30 W per port, ensuring smooth data and power transmission for devices in a network. With dual combo Gigabit SFP/RJ-45 uplink ports, it delivers flexibility in connectivity options for various applications. Built to withstand environmental conditions, the device operates within a temperature range of 5°C to 55°C and supports humidity levels from 0% to 80%. The metal housing enhances durability, while the built-in 6KV ESD protector ensures safety against electrical surges. With a switching bandwidth of 7.2 Gbps and a MAC address table size of 16K entries, this switch provides robust support for demanding networking tasks.
