visuals.

ASUS-exclusive SplendidPlus Technologies

We've raised the bar by incorporating some of our proprietary technologies into the ASUS VA279HAE series to give you a truly vivid visual experience. The VA279HAE features the new SplendidPlus™ Video Intelligence Technology that optimizes videos and images by enhancing color brightness, contrast, and sharpness. SplendidPlus™ features two new modes – Reading and Darkroom – in addition to the Scenery, Standard, Theater, sRGB, and Night View modes. Low-blue Light and Flicker-free technologies also reduce the strain on your eyes after long periods of use.

Ultra-low Blue Light Monitor

The TÜV Rheinland-certified ASUS Blue Light Filter protects you from harmful blue light, and you can easily access its four different filter settings via a hotkey. VA279HAE has undergone stringent performance tests and has been certified by TÜV Rheinland laboratories, a global provider of technical, safety, and certification services, to be flicker-free and to emit low blue light levels

Level 1 is ideal for normal web browsing, and gives you excellent color reproduction for lifelike visuals, minimal color shift.

Level 2 is ideal when you're viewing photos and videos, giving you a perfect balance of high image quality.

Level 3 gives you the look of real paper, making it ideal for long hours of reading or word processing.

Level 4 is ideal for environments with dim ambient light.

Flicker-free Technology

It's time to say goodbye to those tired, strained eyes. VA279HAE features TÜV Rheinland-certified ASUS Flicker-Free technology to reduce flicker for a comfortable viewing experience. This technology helps minimize instances of eyestrain and other damaging ailments, especially when you spend long, countless hours in front of a display watching favorite videos.
