

Klevv Fit V memory module 32 GB 2 x 16 GB DDR5 6400 MT/s 288-pin DIMM

Model: KD5AGU880-64A320L

Manufacturer: KLEVV

EAN: 4895194968801

Product Code: 1185726

R13,634

Supercharged for Content Creators

Experience seamless multitasking and graphics rendering with the FIT V, equipped with high frequencies of up to 6400MT/s. Enjoy low latencies for faster response times and smoother and stable system performance that can easily keep up with your demanding workload.

Ultra-low Clearance

The FIT V boasts a sleek and minimalist design with excellent heat dissipation at only 33.2 mm in height. The low-profile aluminum heat spreader ensures extensive compatibility for diversified configurations, providing users with more flexibility when selecting components for their PC build.

Work with AMD

Unleash Optimized Platform Performance

At KLEVV, we understand that choosing the right memory can sometimes be challenging. That's why we've designed our products for broad platform compatibility—making it easier for users to find the ideal match for their system. FIT V is optimized for AMD platforms, while maintaining compatibility with legacy Intel platforms. Check the table to ensure optimal compatibility with your respective platform.

Intel® XMP & AMD EXPO™ Ready

Maximize performance with pre-programmed FIT V settings for optimized timings, voltages, and speeds through both Intel® XMP and AMD EXPO™ on-board profiles.

Rigorous Testing and Quality Standards

KLEVV is a premium memory brand known for our expertise in delivering high-quality DRAM products, where our memory modules are crafted with exceptional attention to detail and the finest components, setting the standard for reliability and quality.

QVL Tested & Approved

The FIT V has undergone thorough testing for the world's renowned leading motherboard manufacturers' Qualified Vendors List. Our memory is designed to deliver impressive performance and compatibility with all major motherboards on the market.
