Klevv Urbane V RGB memory module 32 GB 2 x 16 GB DDR5 6000 MT/s 288-pin DIMM

Model: KD5AGUA80-60A300M

Manufacturer: KLEVV

EAN: 4895194968184

Product Code: 1186451

R14,309

Crafted for Gamers and Creative Professionals

Turbocharge your performance with the URBANE V RGB, delivering DDR5 lightning-fast speeds up to 8400MT/s.

Ultra-low latencies ensure instant response times for smooth and reliable performance.

Stylish Design and Impeccable Cooling

The URBANE V RGB aluminum heatsink features sleek rounded edges with linear grooves, significantly improving heat dissipation. This design enhances cooling efficiency, keeping your system stable.

Stunning RGB Illumination

Unleash your full aesthetic potential with a unique light guide strip that delivers a bold, double-beam RGB glow, giving your setup a dynamic and commanding presence.

Space-saving Design

With a height of just 42.5mm, the URBANE V RGB offers flexibility for assembly, making it ideal for smaller to compact builds and systems with larger CPU cooling components.

Exceptional Stability with 10-layer PCB

Engineered with the highest quality, the 10-layer PCB design provides reliability and enhanced signal integrity to ensure reliable performance for the most demanding applications.

Precision Temperature Monitoring

The URBANE V RGB RAM is equipped with a built-in thermal sensor for precise real-time monitoring of memory temperature. This advanced feature guarantees that your system functions efficiently, preventing overheating and maintaining optimal performance during extended gaming or demanding tasks.

Compatible with Intel & AMD Platforms
Reliable Performance, Worry-free Upgrades

At KLEVV, we understand that choosing the right memory can sometimes be challenging. That's why we've optimized our products for both platforms, making it easier for consumers to identify the memory that best suits their system. Check the package before purchase to ensure optimal compatibility with your respective platform.

Effortless Overclocking with Intel® XMP 3.0 & AMD EXPO™ Support

The URBANE V RGB RAM supports Intel® XMP 3.0 and AMD EXPO™, allowing for simple, one-step overclocking. Tweak your system to higher speeds with preset profiles, ensuring smooth gameplay and enhanced performance without the hassle of manual tuning.

Upgrade Confidence: QVL Approved

The URBANE V RGB RAM is QVL-tested to ensure compatibility across mainstream motherboards. This rigorous testing process guarantees seamless integration and reliable performance, enabling you to build your system with confidence.
