

UBIQUITI USW-Pro-XG-10-PoE

Model: USW-PRO-XG-10-POE

Manufacturer: UBIQUITI NETWORKS

EAN: 810177160137

Product Code: 1186503

R19,986

The Ubiquiti UniFi Switch Pro XG 10 PoE is designed for high-performance networking. With a switching capacity of 240 Gbps, this switch offers non-blocking throughput and supports advanced features such as VLAN configuration and Quality of Service (QoS) to optimize data flow across the network. The device is equipped with 10 100/1000/2.5G/5G/10GBase-T ports that support Power over Ethernet (PoE++) and an additional 2 ports for 10 Gigabit SFP+ connections, providing flexibility for various network setups. Equipped with a user-friendly 1.3-inch touchscreen display, the switch makes it simple to manage and monitor network status. This model is built to operate within a wide temperature range and can handle humidity levels of 10 - 90%, ensuring reliability in various environments. With a robust PoE budget of 400 W and compliance with numerous standards, it offers compatibility for all network installations.
