R1,673

A4tech Bloody R72 Ultra Duo is a dual-mode gaming mouse designed for players who want flexible connectivity and precise control. It switches between wired and 2.4 GHz wireless use, and includes a nano USB receiver and a USB-C cable so switching setups is quick and convenient.

Built to support responsive gameplay, the mouse pairs a high-resolution optical sensor with realtime sensitivity switching and a 1000 Hz report rate to help maintain accurate tracking and low-latency input. Durable switches rated for 30 million clicks, a braided 1.8 m cable for reliable wired play, and onboard receiver storage make the mouse practical for both desktop and portable use, while included accessories such as a charging dock, USB adapter, and anti-slip grip tapes add convenience for everyday gaming sessions.
