Model: A4TMYS47747

Manufacturer: A4TECH

EAN: 4711421000826

Product Code: 1187016

R1,606

A4tech Bloody R72 Ultra Duo is a gaming mouse designed for players who need flexible connectivity and consistent responsiveness. It supports both wired USB-C and wireless 2.4 GHz use with a nano USB receiver and a 10 m maximum operating distance, letting users switch between low-latency wired play and the convenience of wireless without sacrificing control. The mouse pairs a high-resolution 20,000 cpi sensor and a 1 ms, 1000 Hz polling rate with 350 ips tracking speed and 40 G acceleration to deliver accurate, predictable tracking during fast movements, while Alpha 20K Engine, RapidSnap Rebound technology, WaveLink connectivity, and AFC technology work together to optimize tracking and click response. The included docking station, USB adapter, extra cables, and grip tapes make the mouse ready for different setups and preferences, and the built-in 300 mAh lithium battery provides wireless runtime for mobile play when needed.
