

UBIQUITI USW-Flex-2.5G-5

Model: USW-FLEX-2.5G-5

Manufacturer: UBIQUITI NETWORKS

EAN: 810084696040

Product Code: 1187022

R1,995

The Ubiquiti UniFi Switch Flex Mini 2.5G offers an efficient and reliable networking solution for small to medium deployments. Designed to handle demanding tasks, this switch supports up to 25 Gbps switching capacity, ensuring smooth data transfer without bottlenecks. With a compact desktop form factor, it provides five 2.5GBase-T ports, including one PoE port for flexible connectivity options while maintaining a non-blocking design that enhances overall performance.

Built for various environments, the UniFi Switch Flex Mini can operate in temperatures ranging from -20°C to 45°C, making it suitable for diverse conditions. It is equipped with essential features such as port mirroring, flow control, and loop protection, enhancing network management and stability. With its robust polycarbonate enclosure and support for Jumbo Frames, multicast/broadcast rate limiting, and egress rate limiting, this switch is engineered for efficient network operation while also ensuring compliance with IC and FCC standards.
