Indulge in a wider gaming experience with the 32" 4K OLED designed for gamers ready to dive into a broader world. Impeccably fitting your desk, it will truly captivate your view with a grand sense of scale.

Dual-Mode, double the wonder

No need to hesitate between refresh rate and resolution. VESA-certified Dual-Mode, you can dive into graphically rich games at UHD 240Hz and instantly switch to FHD 480Hz on a 24" or 27" monitor, whichever you prefer, for fast-paced gaming just by pressing a hotkey.

The brighter OLED

Brilliance to magnificent play

The brilliant OLED display takes colours to a new level of vividness. With a standard luminosity of 275nits and a peak brightness of 1300nits, this monitor keeps your visuals bright and vibrant, ensuring you never play in the dark.

Micro Lens Array+

The evolution of OLED

Our UltraGear OLED featured Micro Lens Array+ technology, presents 37.5% higher brightness (SDR) compared to MLA.

DisplayHDR True Black 400 | DCI-P3 98.5%

The explosion of colours

VESA DisplayHDR True Black 400 makes every scene, whether bright or dark, come to life with its realistic details with a 1.5M contrast ratio and DCI-P3 98.5% (Typ.).

Extremely fast 0.03ms response time

With 0.03ms (GtG) response time, reducing reverse ghosting, and helping objects render clearly, enjoy the game with smoother movement and surreal visual fluidity.

7Wx2 Speaker with DTS Virtual:X

Spatial sound

The deep sound from the built-in 7Wx2 stereo speakers enhances the immersive gaming experience. With DTS Virtual:X, simulating up to 7.1 channels, you can feel the game sound surrounding you like never before.

Gamer-centric design

Unveiling UltraGear's new identity in Unity Hexagonal Design. Unfold your own game room with a streamlined, unique design. The adjustable base, which supports swivel, tilt, height, and pivot, helps you play games more comfortably.

L-shaped stand, efficient space saving for gaming

The clutter-free L stand with swivel adjustment is designed to take up minimal desk space and reduce dead space. It gives gamers more spacious room to play games which helps them play games comfortably.

NVIDIA G-SYNC Compatible

This monitor is an NVIDIA-tested and officially validated G-SYNC Compatible monitor, that can give you a good gaming experience with significantly reduced tearing or stuttering.

VESA certified AdaptiveSync

Featuring VESA AdaptiveSync Display certification, geared towards gaming with notably higher refresh rates and low latency. Enjoy smoother, tear-free gaming visuals and jitter-free video playback.

AMD FreeSync Premium Pro

With FreeSync Premium Pro technology, gamers can experience seamless, fluid movement in high-resolution and fast-paced games. It significantly reduces screen tearing and stuttering.

Bring sharpness to your play

This monitor has received VESA ClearMR 13000 certification, allowing you to see movement as clearly as still images with incredibly reduced motion blur for gaming.

Anti-glare & Low reflection

Show only your game

Anti-glare & Low reflection technology can provide a better viewing experience by reducing screen distraction even in the surrounding lighting environment.

Comfortable but vibrant

Keep your gaming experience brilliant, keeping your eyes comfortable with LG's Live Colour Low Blue Light technology.

DP 2.1 and HDMI 2.1

Amplify gaming output with an OLED display

This monitor is capable of up to 240Hz refresh rate from DP and HDMI so that gamers can fully enjoy 4K UHD resolution and 240Hz either by DisplayPort or HDMI ports.

4-pole headphone out

Plugin for immersive sound effect

Easily connect your headset with 4-pole headphones out and enjoy gaming while having a voice chat. Also, you can experience the immersive sound by DTS Headphone:X, offering a virtual 3D audio experience.
