Adaptive Noise Cancelling with Smart Ambient

Adaptive Noise Cancelling automatically adjusts to tune out the distractions, whether you're deep into your work or getting into the groove. Use Ambient Aware and TalkThru to hear what’s happening around you or jump into conversations without taking off your headphones. Manage it all easily through the JBL Headphones app.

2-mic perfect calls with beamforming technology

Two beamforming mics on each earcup precisely capture your speech without background noise, while our latest noise reduction technology filters out ambient sound in even the busiest environments. So whether you’re on a teleconference in a busy café or catching up with a friend during your commute, your voice comes through loud and clear.

Pure bass, noise free

Your music takes center stage with JBL Tune 780NC wireless headphones. JBL Pure Bass Sound and immersive Spatial Sound surround you with crisp, powerful music, while Adaptive Noise Cancelling keeps you free from distractions. The sleek over-ear design with subtle metal accents makes a statement in your choice of stylish colors. Up to 76 hours of battery life means you can go a week between charges. And if you do need a top-up, five minutes gets you another 5 hours—or just plug in the detachable headphone cable to stay in the groove. With 2 mics that accurately pick-up your voice, calls sound perfect on both ends. Seamless Bluetooth® switching makes it easy to stay connected across devices, while the JBL Headphones app lets you tailor the sound of your music and crystal-clear calls with ease. They’re lightweight enough to wear all day, and foldable so they slip easily into any bag when the music’s over. From morning podcasts to all-night playlists, JBL Tune 780NC headphones are built to keep up and stand out.
