

MIKROTIK SXTR&R11E- LTE7 LTE CPE router

Model: SXTR&R11E-LTE7

Manufacturer: MIKROTIK

EAN: 4752224010148

Product Code: 1189772

R2,934

The MikroTik SXT LTE7 kit is designed for robust performance in demanding environments, featuring a wide operating temperature range from -40°C to 60°C. This router provides reliable connectivity with support for both 3G and 4G mobile broadband technologies, ensuring seamless Internet access wherever needed. Equipped with a powerful wireless cellular modem, it can achieve maximum transfer rates of 300 Mbps, making it suitable for various applications, from home use to business needs.

This product includes multiple connectivity options, with two Ethernet ports for versatile networking and passive PoE support for efficient power handling. The included mounting kit enables easy installation in diverse settings, while its rugged design ensures durability in outdoor conditions. With an MTBF of 200,000 hours, the MikroTik SXT LTE7 kit represents a viable choice for those seeking a reliable networking solution.
