HOTWAV T7S smartphone (black)

The HOTWAV T7S is a smartphone designed for those who expect uncompromising reliability. It combines a rugged design that is resistant to water, dust, and drops with the smooth performance of Android 13 and a powerful octa-core processor. The large, easy-to-read screen works in all conditions, even when wearing gloves, and the high-capacity battery allows you to use your phone for days without charging. Add to that large data storage, reliable cameras, fast connectivity, and precise navigation, and the HOTWAV T7S is a versatile companion for work, travel, and everyday life.

System performance and smooth operation

The smartphone runs on Android 13.0, offering intuitive operation, up-to-date security, and extensive customization options. Smooth operation is ensured by the MediaTek MT8788 octa-core processor manufactured using 12 nm technology, supported by the Mali-G72 MP3 graphics chip. This configuration ensures smooth application performance, comfortable multitasking, and stable —

gaming. The smartphone also offers 4 GB of RAM, expandable by an additional 4 GB of virtual RAM, for a total of up to 8 GB of operating memory, which significantly improves system responsiveness.

A large screen ready for all conditions

The HOTWAV T7S is equipped with a 6.52-inch HD+ display with a resolution of 720 × 1600 pixels and a brightness of up to 450 nits, allowing for comfortable use of the smartphone even in full sunlight. The screen is protected by Dragontrail Glass, which increases resistance to scratches and mechanical damage. An additional advantage is the Glove-Friendly Screen function, which allows you to operate the phone while wearing gloves – a solution particularly useful in cold weather or when working in the field.

Storage freedom and long battery life

There is 128 GB of internal memory for data, photos, and applications, which can be expanded with a TF card up to 2 TB. This means you don't have to worry about running out of space, even with intensive use. The 6280 mAh battery allows you to use your smartphone for a long time without reaching for a charger – up to 50 days in standby mode or up to 30 hours of talking, gaming, and video playback. It's the perfect solution for people who are often away from home or away from a power source.

Photography and communication without compromise

The smartphone is equipped with a 21 MP rear camera and an 8 MP front camera, allowing you to take clear photos, make video calls, and capture everyday moments. Support for 4G LTE networks, Dual SIM functionality, and dual-band 2.4 and 5 GHz Wi-Fi guarantee a stable connection in any situation. Precise navigation based on GPS, GLONASS, and Galileo systems makes it easy to navigate the terrain, while the Face Recognition feature ensures fast and secure unlocking of the device.

Thoughtful design

Despite its durability, the HOTWAV T7S retains reasonable proportions – with a thickness of 12.8 mm and a weight of 292 g, the smartphone fits comfortably in your hand and is convenient for everyday use. It is an option for those who need a durable, powerful phone that is ready for any challenge,

without sacrificing the functionality of a modern smartphone.

Durability you can rely on

The smartphone's casing meets the rigorous IP68, IP69K, and MIL-STD-810H military standards, ensuring resistance to water, dust, mud, and drops from heights of up to 1.2 meters. This device is not afraid of rain, construction sites, or rough terrain, while maintaining a modern, distinctive look.
