Backup and Detachable Antennas

WAN/Cellular1/Cellular2 give you triple backups for a reliable network. To enhance signal quality, you may replace cellular antennas with extension antennas.

Online Redundancy

Dual SIM slot redundancy and WAN/Cellular backup provide high redundancy for the network.

Band Lock

4G/5G band lock makes it possible to lock the 4G working frequency to one or several bands to maintain operation stability.

TTL Settings

Support manual sets TTL values to meet ISP's requirements. Support set IPv4 TTL and IPv6 HL Values.

Advanced DNS Security

Encrypt your web browsing lookup with trustful partners, preventing eavesdropping and manipulation of DNS data via a man-in-the-middle attack.

A 5G WiFi 6 router employing the 3GPP Release 16 standard, with a max 3.4 Gbps download speed. It features complete Qualcomm solutions, dual SIM slots, and a high-capacity AX3000 WiFi 6.
