Wireless gaming keyboard in TKL format

No cables, no numeric keypad, no compromises: With the CHERRY MX 8.2 TKL Wireless you benefit from wireless freedom of movement and still take advantage of your full gaming power. The mechanical keyboard in Tenkeyless format can be connected wirelessly via Bluetooth® or the 2.4 GHz band as well as via USB-A to USB-C cable and impresses in incredibly fast gaming mode with a latency of less than 1 ms. Thanks to the intelligent charging technology, you can continue to play while you recharge the keyboard. Added to that, you can expect stylish RGB lighting, a sturdy metal case for safe transport and of course our high-quality original CHERRY MX switches. Step up your game!

Space-saving design with stylish lighting options

The CHERRY MX 8.2 TKL Wireless has a solid aluminum housing, which makes it high-quality and stable despite its compact dimensions. Since the wireless mechanical keyboard in TKL format takes up little space, your desktop will immediately look neater. The lack of a numeric keypad also provides an ergonomic advantage: Your mouse arm is closer to the keyboard, which automatically optimizes your shoulder posture and reduces tension. The height can be adjusted with the fold-out feet. Another plus: Because the CHERRY MX 8.2 TKL Wireless is so compact and easy to transport, you get a sturdy metal case from us on top.

To really set the stage for your tidy gaming setup, simply use the stylish RGB lighting. You can illuminate the small gaming keyboard just the way you like it thanks to the breathtaking light effects at your disposal in over 16 million colors on each individual key. You have even more customization options with our free CHERRY UTILITY software.

Innovative triple mode connection: Bluetooth®, 2.4 GHz wireless and cable

Thanks to our CHERRY Advanced Wireless Technology, you have incredible flexibility with the CHERRY MX 8.2 TKL Wireless: Connect the mechanical TKL keyboard without cables, for example, via Bluetooth® and connect up to three terminal devices at once. You can then switch back and forth at the touch of a button. The special Low Latency Mode (LLM) uses an extremely fast Bluetooth®

connection that lets you enjoy your gaming sessions to the full at top speed. Alternatively, the Tenkeyless mechanical keyboard can also be connected wirelessly using a USB dongle via the 2.4 GHz band.

Prefer a cable connection? This is also no problem with the CHERRY MX 8.2 TKL Wireless. The USB-A to USB-C cable provided is not only used for data transfer, but also for charging. Thanks to the intelligent charging technology, you don't have to interrupt your game to recharge, simply sit back and continue playing.

Original CHERRY MX switches: High quality and reliable

The Tenkeyless Wireless Mechanical Keyboard owes its precision and incomparable typing feel to our very own CHERRY MX switches. The tried-and-tested switches are exclusively manufactured in Germany and guarantee up to 100 million actuations per button. Thanks to the abrasion-resistant key lettering, the letters on the TKL gaming keyboard remain easy to read even after years of use.

Victory is at hand with practical extra features!

Don't want your equipment to let you down in the heat of battle? That is out of the question with the CHERRY MX 8.2 TKL Wireless. The compact gaming keyboard without numpad boasts practical special features: Anti-ghosting prevents typos, while Full-N-Key Rollover ensures that all keys are read simultaneously and no input is lost. You can avoid unintentionally executing Windows commands during gameplay by activating the WIN key lock.
