With the travel-sized and compact design, TL-MR3020 is small enough to take on the road and make sure that you can share a 3G internet connection wherever wireless 3G coverage is available.

Travel Router with 3G/4G Function

TL-MR3020 is the ideal travel partner for people on the go. 3G Router Mode enables you to plug in a 3G USB modem and share it wirelessly. Its Travel Router Mode (AP Mode) allows you to conveniently setup an internet connection utilizing a hotel WAN cable. Meanwhile, you can also use the switch on the side of the router to choose between Travel Router Mode, 3G Router Mode and WISP Client Router Mode based on your different requirements.

Power Supply

TL-MR3020 provides you a mini USB port to be connected to your laptop or power adapter for power supply.
