Powerful Processor

Dual-core 880 MHz processor ensures smooth performance for your multi-media streaming, web surfing, & video chats

5 Gigabit Ethernet Ports

(4 Ethernet LAN/1 internet) Connect more wired devices for faster file transfer and uninterrupted connections for your streaming players & gaming consoles

WiFi 6 Supports All Current WiFi Devices

Backwards compatible with WiFi 5 and earlier generation devices

Powerful Security

NETGEAR® routers have security features enabled out of the box with automatic firmware updates, and industry-leading safety features to help protect you and your family

Essential All-In-One Internet Security

NETGEAR ArmorTM software provides an automatic shield of security for your WiFi and connected devices (PC, phone, camera, TV, etc.) for real-time protection. 30-day trial included

WiFi 6: Upgrade Your WiFi

With WiFi 6, you get faster speeds and more device capacity than WiFi 5. Stream in ultra HD 4K/8K, video call, and more without getting interrupted or slowed down, even as you connect more devices to your network. It’s like upgrading your WiFi to first class.

Essential all-in-one internet security

You wouldn’t leave your door unlocked at night. Treat your WiFi network with the same level of security. NETGEAR Armor keeps your family and your connected devices safe with an automatic shield of protection for your network to stop hackers, password thieves, ransomware, and brute force
