

Klevv CRAS C910 4 TB M.2 PCI Express 4.0 NVMe TLC 3D NAND

Model: K04TBM2SP0-C91

Manufacturer: KLEVV

EAN: 4895194901723

Product Code: 1195535

R5,148

Armored with Power Cooler than Ever

Optional Add-on Aluminum Heatsink

Offering high-efficient attachable aluminum heatsink for user to freely install based on ones preference.

Intelligent SLC Caching Algorithm

Enhanced durability and read/write performance with the application of SLC caching technology.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Excellent Thermal Throttling Algorithm

Maintain constant temperatures within SSD to ensure data safety and integrity.

S.M.A.R.T. for Condition Monitoring

Maximize product stability through the built-in S.M.A.R.T. (Self-Monitoring, Analysis, and Reporting Technology).

LDPC ECC & Global Wear Leveling

Provide satisfying data retention/protection and overall lifespan extension.

Powerful AES 256-bit Encryption

Support AES 256-bit Hardware-based Encryption to ensure superior data security.

Phenomenal Speed for Both Work and Fun

Time to take your system performance to new heights! Leveraging PCIe Gen4 technology, the CRAS C910 achieves phenomenal read/write speeds of up to 5200/4800MB/s, delivering seamless experience for gamers, creators, and professionals.

Modern yet Powerful Aluminum Heatsink

The attachable aluminum heatsink of CRAS C910 provides an efficient way to dissipate unnecessary heat from the product. With up to 10% temperature reduction compared to non-heatsink SSDs, it can avert overheating and secure long-term reliability to extend product lifespan.

Optional Add-on Heatsink for Diverse Scenarios

We know that users can face diverse usage scenarios and have personal preferences when it comes to building a rig. The CRAS C910 hence provides an optional adhesive heatsink to maximize your freedom in SSD installation. It's your call to decide what best suits you!

Buttery Smooth Performance for Top-tier Gaming

With the CRAS C910, system boot time, game load time, and overall response time can be reduced dramatically all at once. For people wanting to play the latest titles & enjoy lag-free experience, it is definitely a must-have to play with confidence!

Cutting-Edge 3D NAND Inside

3D NAND technology offers bigger storage capacity, better durability, and lower power consumption compared to legacy 2D NAND. Combining all the advantages together, the CRAS C910 delivers reliable quality with prominent TBW(Terabytes Written) that you get to use at ease.

Trouble-free Installation across Systems

Not just compliant with minimal M.2 2280 form factor, the add-on heatsink of CRAS C910 is also specially designed to be extremely light & slim! The 1-mm-thick heatsink allows the whole compact SSD to fit into diversified desktops, mini PCs, and laptops, with only a tiny space required!

Optimized Performance for AAA Games

Offering extremely fast performance for top-tier gaming, the CRAS C910 is able to reduce the overall download, load, and system response time significantly.

Smoother Workflow for Every Creator

No more heavy workload!

A boost in speed to save time & improve efficiency on your creative workflow. For every creator desiring hassle-free multitasking, the CRAS C910 can be a huge upgrade to the system environment while running multiple professional editing software all at once.

Includes FREE Backup & Migration Software

Every KLEVV CRAS C910 SSD comes with an official license for Acronis True Image. The software offers comprehensive disk-image backup features, enabling users to effortlessly restore or transfer data from their existing drive.
