95% P3 | 100% Rec.709 | 100% sRGB

See It Right, Share It Right

PV3200U delivers 100% Rec.709 and 95% P3 coverage, ensuring the right colors from editing to publishing. With the Wireless Hotkey Puck, you can switch color modes with a single tap, accurately preview your content before exporting, and avoid unexpected color shifts on YouTube, Vimeo, and other video platforms. What you see is what your audience gets.

iDevice Color Sync

Mobile Devices Color Preview

Take it a step further by previewing how colors will appear on mobile devices like iPhone and iPad before exporting. Ensure consistent visuals across screens.

iPad Color Preview

Open iDevice Color Sync, choose iPad, and preview video colors instantly.

iPhone Color Preview

Open iDevice Color Sync, select iPhone, and see how your video colors appear on screen.

Certified by Renowned Third-Party Authorities

Calman Verified

Every BenQ video editing monitor is fully Calman Verified. Creative professionals demand excellence, and BenQ delivers.

Colors You Can Trust

BenQ AQCOLOR ensures 'Accurate Reproduction,' delivering out-of-the-box color precision with Delta E≤2, corner-to-corner uniformity, and a factory calibration report. All features are rigorously tested for consistency, providing all types of creators with unparalleled precision and total color confidence.

Industry Standard

Experience broad coverage of in-demand color spaces, carefully calibrated for color temperature, gamma, and brightness.

Uniform Visuals

Work with consistent color uniformity from edge to edge on a single monitor or across multiple

monitors.

Accuracy Guarantee

The assurance that your monitor accurately represents your intended colors, with third-party validation for precise reproduction.

Crisp Voices. Clear Mix. No Extra Gear.

Studio Mode

Let Your Audience Hear It Right

Designed for audio-focused video creators, Studio Mode delivers unprocessed true-to-source sound, preserving every voice, background sound, and effect without over-editing or heavy tuning. Your audience hears the true clarity of your work.

2.1ch Frequency Separation

Clear Voices, Balanced Bass

Edit with confidence, no more ear fatigue. Built-in dual 2W mid-high speakers and a dedicated 5W woofer deliver balanced sound. Unlike typical PC speakers, clear vocals stand out without muddy bass. Even without headphones, you can trust what you hear.

Get Projects Done Faster

Spend less time worrying about your gear and display, and focus on what truly matters.

BenQ Display Pilot 2

Customize Your Workspace, Stay in Control

With BenQ’s free Display Pilot 2 software you can easily organize essential functions like ICCsync, Color Modes, and Desktop Partition for a seamless editing experience. Keep your workflow efficient by tailoring the interface to your needs—less time navigating menus, more time creating.

M-book Mode: Mac Device Color Matching

Exclusive M-book mode ensures a perfect match with Mac® and MacBook® Pro colors. *Mac® and MacBook® are trademarks of Apple Inc.

ICCsync: Ensures Color Consistency

ICCsync automatically syncs ICC profiles between your Mac and BenQ monitor when switching color

modes.

iKeyboard Control: Integrated MacBook Controls

Effortlessly adjust display brightness and volume using your Mac® keyboard. *Only applicable to Mac devices using Display Pilot 2 software.

Wireless Hotkey Puck

Your Workflow Assistant

BenQ Hotkey Puck simplifies monitor control and integrates with Display Pilot 2 for effortless customization. You can easily assign shortcut functions and switch Color Modes or Audio Modes instantly. The rotating dial provides precise control over brightness, contrast, and volume—no menu browsing needed.

Mac & Windows Device Compatibility

All-in-One USB-C Connection

Quickly transfer data and deliver power up to 65W. Your Thunderbolt 3/4 devices are compatible with USB-C on BenQ displays, ensuring consistent and seamless work efficiency.

Fully Ergonomic Built-In Stand

With a variety of tilt, swivel, and pivot controls, whether you’re sitting or standing for hours of video editing, there’s always a perfect angle to keep you focused and comfortable.

From Solo Edits to Team Collabs

For video creators, color consistency is everything. Whether you're editing solo, working across dual monitors, or collaborating in a small studio setup, BenQ ensures cross-display color accuracy so your content looks the same across screens.

Achieve More Precise Color Matching with a Calibrator

Calibrate your monitor effortlessly with BenQ's exclusive and free calibration software, Palette Master Ultimate. Follow visual menus and clear prompts for software calibration that meets international standards.
