3D Gaming in Seamlessly Fluid Ultra HD

Step into a vibrant 3D world with the Predator SpatialLabs View 27. Experience fluid gameplay on a 27" Ultra HD display at 160Hz, enhanced by G-Sync and Free-Sync. Every frame is a seamless, immersive journey that elevates your gaming to new heights.

Low Light 3D: Your Gaming, Your Way

Transform any room into the ultimate gaming den. The Predator SpatialLabs View 27 is optimized to ensure your 3D gaming remains impeccably clear and vivid, even when the lights are turned down low. No loss of detail—just you and your adventure.

SpatialLabs TrueGame: 3D Gaming as Designed

Discover gaming as envisioned by its creators with SpatialLabs TrueGame. This technology revives original 3D designs, breaks free from the flat 2D world, and takes you into a realm where every contour and element is rendered with breathtaking realism.

Play Hard. Play Long. Play More.
Leap into 3D gaming with just one click, no complex setups. Play as long as your heart desires with automatic 3D focus that delivers a comfortable gaming experience. And with new game profiles added monthly, stereo 3D adventures keep expanding.

Acer Immerse Audio: Spatial Audio That Moves with You

Experience a new dimension of sound with Acer Immerse Audio. Dual 2.5W speakers, powered by AI-driven acoustic precision, create a dynamic virtual headset that adapts to your movements, and elevates gaming ever closer to lifelike reality.

Recommended System Requirements
The system requirements for running 3D games are usually comparable
to those needed to play the game at 4K resolution in 2D.
Actual performance may vary game by game as there are many factors involved including game-specific
rendering features or TrueGame optimizations made for the best 3D experience.
