Ugreen DH2300 NAS Mini Tower 4 GB Grey

Model: 95998

Manufacturer: UGREEN

EAN: 6941876299980

Product Code: 1199234

R5,359

Entry-level NAS Personal Storage UGREEN NAS DH2300 is your first and best NAS made easy. It is designed for beginners who want a simple, private way to store videos, photos and personal files, which is intuitive for users moving from cloud storage or external drives and move away from scattered date across devices. This entry-level NAS 2-bay perfect for personal entertainment, photo storage, and easy data backup (doesn't support Docker or virtual machines).

Set Your Devices Free, Expand Your Digital World: This unified storage hub supports massive capacity up to 60TB.*Storage drives not included. Stop Deleting, Start Storing. You can store 20 million 3MB images, or 2 million 30MB songs, or 40K 1.5GB movies or 62 million 1MB documents! UGREEN NAS is a better way to free up storage across all your devices such as phones, computers, tablets and also does automatic backups across devices regardless of the operating system—Window, iOS, Android or macOS.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Smarter Long-term Way to Store: Unlike cloud storage with recurring monthly fees, a UGREEN NAS enclosure requires only a one-time purchase for long-term use.

Blazing Speed, Minimal Power: Equipped with a high-performance processor, 1GbE port, and 4GB LPDDR4X RAM, this NAS handles multiple tasks with ease. File transfers reach up to 125MB/s—a 1GB file takes only 8 seconds. Don't let slow clouds hold you back; they often need over 100 seconds for the same task. The difference is clear.

Let AI Better Organize Your Memories: UGREEN NAS uses AI to tag faces, locations, texts, and objects—so you can effortlessly find any photo by searching for who or what's in it in seconds. It also automatically finds and deletes similar or duplicate photo, backs up live photos and allows you to share them with your friends or family with just one tap. Everything stays effortlessly organized, powered by intelligent tagging and recognition.

Uncompromising Privacy & Security: You own your data, stored on your drives—no third-party clouds, no hidden access. To provide end-to-end protection for your data against leaks or loss—whether the data is stored or in transit—this UGREEN NAS incorporates layered security features like RAID modes, two-Factor Authentication, permission controls, and encrypted transfers. Backed by TRUSTe certification, it’s also the first and only NAS certified by TÜV SÜD to meet the ETSI EN 303 645 standard.
