materials to deliver high-strength and lightweight body design.

Transparent Open Wear More Breathable and Comfortable

The open-ear design ensures much comfort and sound awareness.
Keep ears breathable and comfortable at all times,
with no fear of missing important ambient sound information.

5.1 g Light Weight Airy and Stable

With the EarClip each weighing only 5.1 g,1

ensures extended dry and stable wear, be it for fitness, entertainment or work.

Smooth Touch and Delicate Luster

Whether it's the earbuds or the charging case, boasts liquid metal-like gradient luster and sleek.
Like a set of exquisite accessories, highlighting the wearer's good taste and elegant temperament.

Directional Sound Transmission Less Sound Leakage

The Melody Pearl is designed forming an "apple" shape with a wide top and a narrow bottom. It fits naturally with the ear, with the dual rear pressure relief holes, realizes directional sound transmission,3 achieving directional sound transmission and reducing sound leakage.

One-handed Operation Simple and Easy

Like the Melody Pearl, the charging case features a narrow lower section for easy one-handed grip. The wider upper part increases the contact area during opening/closing, making one-handed operation easy and fast.

Dual-magnet Driver Unit Powerful and Touching

The earbuds are equipped with 10.8 mm dual-magnet driver unit with PEEK+PEN titanium plated diaphragm. Make the treble gorgeous without being harsh, bass is dynamic yet delicate.

Enhanced Sound Melodious as You Wish

Professional algorithms dynamically compensate for the bass section. Ensure consistent listening experience.

Enhanced Surround Sound Open Sound Field

By simulating a three-dimensional space, it opens up a powerful sound field, providing an immersive experience as if you were at a live event.

Lasting Battery Life for Extended Listening

It offers a total battery life of 36 hours and single music playback of 7 hours.2 Charging for 10 minutes for 2 hours of listening.2 Extended battery life combined with fast charging for lasting listening without interruption. Let great music accompany you for extended time.

AI Call Noise Cancellation for Crystal Clear Calls

The earbuds are equipped with two high-sensitivity mics with AI multi-channel deep neural network (DNN) algorithms for call noise cancellation. Ambient noise is intelligently filtered for clearer hearing on the other side of the phone.

IP54 Water and Dust Resistant

Sweating freely during workouts,
traveling regardless of the weather.

Stable Connection Elegant Operation

Dual Device Connection

Automatic switching, convenient and fast.

Voice Assistant
