Experience the full capabilities of a high refresh rate 120 Hz monitor. Enjoy seamless multitasking, ultra-smooth gameplay, and fluid AI-generated visuals. Ideal for creators, gamers, and innovators alike, this level of performance delivers a visual experience that’s both vivid and precise.

## PerfectEdge Design

The PRO MP225 E12VL monitor features a PerfectEdge (4-sided frameless) Design making it 37.5% slimmer than standard monitors. With a high screen-to-body ratio of 92%, it offers a more immersive viewing experience with less distraction.

This design not only boosts productivity but also allows for seamless multi-display setups, providing an immersive experience for both work and light gaming.

## Display Kit App

MSI Display Kit software supports a broad array of additional functionality, including:

• Direct keyboard & mouse setting adjustments while in the program
• Preset display profiles that can be assigned to software
• Split window multitasking on one screen

## Premium Eye Comfort

Stay focused and reduce eye fatigue with built-in features designed to help improve work productivity:

Less Blue Light employs software-based filter technology, while retaining a vivid colour palate with uncompromising detail.

• Less Blue Light technology*
• Anti-Flicker Panel**
• Anti-Glare Surface

*TÜV Rheinland Low Blue Light (Software solution) Certificate Q 50697985, 2025-11-25
**TÜV Rheinland Flicker Free Certificate Q 50697985, 2025-11-25
