

InLine PC and Server Mainboard Testing Set 5 parts

Model: 59910

Manufacturer: INLINE

EAN: 4043718082070

Product Code: 1203128

R2,036

Simple set for testing of mainboards, without using the long cables from the casing. The set consists of 2 pushbuttons, 2 LED's and 1 speaker, which are connected directly to the post connectors of the mainboard.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
