Lenovo ThinkVision T24D-4t Monitor

Model: 64D2GAT2EU

Manufacturer: LENOVO

EAN: 199273359837

Product Code: 1203288

R8,623

Interactive Performance, Made Simple

Intuitive Touch

Thinkvision's innovative 20-point multi-touch display technology enables smooth, responsive interaction, with glove support for diverse professional environments. The 4-sided ultra-thin bezel design supports edge-to-edge touch, making navigation, collaboration, and presentations feel more natural and intuitive.

Ergonomic Flexibility

The ergonomic stand offers extended tilt (-5° to 65°) and lift adjustment to support comfortable touch operation or traditional monitor use. With VESA mount compatibility, it adapts easily to varied workspace configurations and deployment requirements.

Seamless One-Cable Docking

Simplify your workspace with USB-C one-cable docking that delivers power (up to 100W*), data, and display simultaneously. The integrated USB hub keeps peripherals connected while reducing cable clutter for a cleaner, more efficient setup.

*The 100W (20V/5A) output rating is based on Lenovo proprietary VDM technology and requires compatible Lenovo systems. Actual power delivery may vary.

Expandable Screen Real Estate

Enhance multitasking with daisy-chaining capability via DisplayPort out port. Combined with the 4-sided ultra-thin bezel design, it creates a near-seamless multi-monitor experience for greater productivity.

Smart, Integrated Controls

Power on, shut down, or wake a docked Lenovo notebook directly from the monitor using the Mirrored Power Button—streamlining daily workflows with added convenience.

Flexible Modular Expansion

Upgrade collaboration with optional ThinkVision MC60 Modular Webcam and MS30 Soundbar support via the top-mounted USB-A port, enhancing video and audio performance with a clean, integrated setup.

Lenovo Display Fleet Manager (LDFM)

Enable IT administrators to remotely manage, monitor, and update display assets with centralized control. LDFM streamlines firmware upgrades, asset tracking, and configuration management to improve operational efficiency across deployments.

Lenovo Accessories and Display Manager (LADM)

Optimize display performance with intuitive software control through Lenovo ThinkColour.* Easily adjust settings, customize configurations, and enhance user experience across work scenarios with greater flexibility and precision.

*Formerly Lenovo Display Control Center. Supports Windows 10 & 11 and macOS (functionality may vary by system).

Sustainable by Design

Support your sustainability goals with a monitor designed to meet rigorous environmental standards, including 95% PCC, TCO 10, and ENERGY STAR® 8.0 certifications. Engineered with efficiency in mind, it helps reduce environmental impact without compromising performance.

Eco-Conscious Packaging

ThinkVision packaging is made with 90% paper box and pulp cushion materials to minimize plastic usage and reduce packaging waste.
