

ZOTAC GAMING GeForce RTX 5060 AMP CORE 8GB GDDR7

Model: ZT-B50600F2-10M

Manufacturer: ZOTAC

EAN: 8886307704375

Product Code: 1207230

R12,921

The ZOTAC GAMING AMP Core is a compact graphics card designed for high-resolution gaming and creative work, combining NVIDIA GeForce RTX 5060 performance with a small-form-factor friendly design. It delivers smooth frame rates and responsive visuals for up to four monitors while supporting advanced rendering features that enhance gaming realism and AI-accelerated workflows. Built with fast 8 GB GDDR7 memory, PCI Express 5.0 x8 interface, and support for modern display standards, the card makes it easy to connect high-resolution displays and run demanding titles or content-creation applications. A dual-fan cooler, metal backplate, and intelligent fan stop help manage thermals quietly, while features such as NVIDIA DLSS 4.5, ray tracing cores, and encoder improvements boost both gameplay and streaming or recording workflows.
