TOSHIBA S300 AI Surveillance Hard Drive 10TB 512MB 3.5inch 7200RPM Bulk

Model: MG10ADA10TE-V

Manufacturer: TOSHIBA EUROPE

EAN: 4260557513446

Product Code: 1207244

R10,956

The Toshiba S300 AI is designed for surveillance with a robust 10-liter capacity, ensuring ample space for high-resolution video storage. Tailored for 24x7 operation, this internal hard drive features a spindle speed of 7200 rpm and a data transfer rate of 600 MBps. Its Air Drive Design and rotational vibration safeguard (RVS) work together to enhance reliability, making it suitable for environments with multiple camera setups, supporting up to 64 cameras with a workload tolerance of 550 TB per year.

Engineered to perform within a temperature range from 5°C to 60°C while remaining operable during various conditions, the Toshiba S300 AI exhibits sound emissions of just 34 dB. The drive's shock and vibration tolerance is notable, making it suitable for demanding surveillance applications while protecting data integrity even in challenging environments. With an MTBF of 2,000,000 hours and a robust design to withstand tough handling, this hard drive is built for long-lasting performance.
