One charger for all your devices

Supports fast charging up to 35W

UK Plug

Built-in protection to prevent overheating

Integrated with GaN technology for enhanced charging efficiency and superior thermal dissipation

PD3.1 for wider compatibility and stable charging

Made from 90% post-consumer recycled (PCR) plastic

Enhanced durability

Introducing the empower by PanzerGlass® Turbo Charger Series – where reliability meets speed! This robust charger is designed with GaN technology, resulting in **smaller product sizes** and **improved thermal management**.

Carefully engineered to prevent overheating, it **guarantees a long life** and safe charging experience.

Maximum power

With 35W power delivery, it can charge your phone **from 0-50% in just 30 minutes**. The charger features **real-time temperature control**, ensuring a 10-degree lower temperature than international standards. This promises secure and protected charging, giving you peace of mind as you power your devices. And the best part? It's made from 90**% post-consumer recycled (PCR) plastic.**

We make extraordinary accessories that empower people to connect with friends, family, colleagues and technology every day.
