ICY BOX IB-M2HSF-705 Solid-state drive Heatsink/Radiator 3 cm Silver 1 pc(s)

Model: IB-M2HSF-705

Manufacturer: ICY BOX

EAN: 4250078172123

Product Code: 1209071

R1,131

Powerful cooling performance

The swivelling ICY BOX® heatpipe cooler reduces the temperature of your M.2 SSD (form factor 2280) by up to 40%. Due to the excellent interaction of cooling fins and fan, a cooling capacity of 23 W TDP is achieved. Depending on SSD manufacturer, model and version, as well as load of the SSD.

Perfectly positioned

The possibility to swivel the ICY BOX® heatpipe cooler allows the airflow in the enclosure to be optimally directed. It can also be positioned flexibly, which creates additional space for graphics cards or PCIe expansion cards. This allows you to fit even more performance into small enclosures.

Silent fan

The 30 mm PVM fan has an output of 8500 rpm and a volume flow of approx. 4.9 m^3/h. You can further optimise the fan settings for yourself via the BIOS. This makes it possible to achieve cooling that is perfectly matched to the system. The fan is pleasantly quiet even under high demands.
