up to 18W for quick device top-ups. With the ability to charge three devices simultaneously, it's ideal for both personal and shared use.

## Smart and Reliable Design

The digital TFT display ensures you're always informed, showing real-time power status and wattage output with a colour-coded system. Simplify your charging experience with bi-directional USB-C® capability, allowing one port to handle both charging input and output. Built with advanced safety features, including overcurrent, short circuit, and over-temperature protection, this power bank guarantees secure energy on the go.
