Product Code: 1210519

R2,546

RELIABLE CHILL, QUIET STILL

The ASUS LC 240 ARGB CPU liquid cooler offers reliable, well-balanced cooling with quiet acoustics. A steady 3000rpm pump works together with pre-installed ARGB fans to deliver solid 74.31cfm airflow at just 33dB(A), and a light-accented water block adds a touch of ARGB style, with a tool-free changeable lens for easy personalization. The cooler supports both Intel® LGA1700/1851 and AMD AM4/AM5 sockets, and it's built with a slim 27mm radiator profile to fit most mainstream cases.
