
be quiet! Shadow Rock TF 2 Processor Cooler 13.5 cm Black, Copper, Silver

Model: BK003

Manufacturer: BE QUIET!

EAN: 4260052185391

Product Code: 1211098

R1,515

SHADOW ROCK TF 2

Compact Cooling, Significantly Quiet

Shadow Rock TF 2 is the perfect cooler for PC systems with restricted space. It offers the best mix of performance and price in the premium compact CPU cooler segment.

HIGH-PERFORMANCE HEATPIPES

Offering the system an impressive cooling performance

Shadow Rock TF 2 is equipped with five 6mm heat pipes. They carry the heat straight to optimal locations on the cooling fins and provide the system with a remarkable compact cooling capacity of 160W TDP.

DIRECT CONNECTION OF BASE PLATE AND FINS

For highly effective cooling power

An ingenious cooling concept: The baseplate and the cooling fins of Shadow Rock TF 2 are directly connected. This ensures fast heat transfer and optimum cooling efficiency.

EXTREMELY SILENCE-OPTIMIZED OPERATION

Even at 100% fan speed the overall noise is merely 24.4dB(A)

Silent operation typical for be quiet! products is achieved by the silence-optimized 135mm be quiet! fan. Delivering the best balance between cooling performance and quietness its smooth operation is thanks to the 9 airflow-optimized fan blades and durable rifle-bearing technology.

SMALL, DIAGONALLY ARRANGED FINS

Produce the perfect airflow

The small diagonal fins on the back of the cooler direct the airflow to guarantee efficient cooling for the CPU as well as components around the Intel® or AMD™ socket.

SPACE-SAVING TOP-FLOW DESIGN

Benefit from this highly functional concept

The top-flow design is perfect for anyone who has to cope with limited space restrictions when building a system. Shadow Rock TF 2 more than solves this problem
