Compact. Sleek. Powerful.

Whether you're managing everyday tasks or multitasking with ease, the PRO DP80 Series delivers reliable performance in a sleek, space-saving design.

Performance That Keeps Up With You

With up to an Intel® Core™ 7 processor, built-in NPU for accelerated AI workloads, and 128 GB DDR5 memory, it delivers fast, efficient performance for demanding tasks.

Unleash Your Creativity with NVIDIA® Graphics Card

The MSI PRO DP80 Series is available with professional-grade NVIDIA® graphics card, empowering creators to bring ideas to life—whether you're editing videos, designing graphics, animating, or working on 3D models.

Thunderbolt™ 4 Support

Up to 40Gbps for fast backups and quick transfers

Wi-Fi 7 Support

Wi-Fi 7 delivers ultra-fast speeds and increased network capacity, which is essential for efficiently managing AI workloads.

DDR5 DUAL-Channel

DDR5 memory with dual-channel can enhance work efficiency and quality, processing large amounts of data and complex multitasking quickly and reducing waiting times and delays.

MSI with Microsoft Copilot

Work smarter, be more productive, boost creativity, and stay connected with Copilot—an AI companion adapts to your needs.

Built for Sustainability

The PRO DP80 Series blends business-centric design with environmental responsibility - an embodiment of MSI's dedication to sustainability. By utilizing green material, PCR (Post-Consumer Recycled) plastic, ensures not only the products' durability but also commits to a greener world. Our commitment extends to incorporating sustainable materials in both our product design and packaging. The PRO DP80 Series embodies sustainable value and heightened productivity.

Built to Last, Ready for Work

MSI desktop PCs are engineered for durability, reliability, and long-term performance. Each system undergoes rigorous testing—including military-grade standards and strict in-house quality checks—to ensure it meets the demands of everyday use.

Chassis Intrusion

Chassis intrusion detection is a hardware security feature found in MSI business-grade PCs. It alerts IT administrators when a computer’s case has been physically opened, helping prevent unauthorized access to internal components.

Secure Inside and Out

MSI desktop PCs offer both virtual and physical protection with features like dual LAN for network redundancy, dTPM 2.0 for data encryption, and Kensington lock and padlock support for added physical security—keeping your system safe online and offline.

Dual LAN 2.5G

Connect and transfer data quickly over a high-bandwidth, low-latency LAN.

Kensington Lock & Padlock

Secure the unit with a Kensington lock featuring a padlock combo design.

dTPM Support

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

dTPM encrypts data and passwords for secure, hardware-based protection.

Built-in Speaker

Space-saving design delivering clear audio for notifications and calls.

Seamless Look,

Functional Design

The optional hidden ODD design keeps the front panel clean and minimalist, while still providing convenient access when needed.

Versatile Placement

Designed for flexibility, this desktop PC can be positioned vertically or horizontally to suit any workspace.

EASY TO UPGRADE DESIGN

Designed for easy access, it enables quick component upgrades and routine servicing, saving time and simplifying maintenance.

Thumb Screws

Thumb screw accessories are available for quick and easy removal.

Drive Business

Success with MSI
