Easily share files between connected devices by plugging into an external drive. You can even make it your personal cloud storage and access it from outside securely.

Boosted WiFi Coverage Throughout Your Home

Beamforming technology and high-performance antennas combine to adapt WiFi coverage to perfectly fit your home and concentrate signal strength towards every device.

Flexibly Create Whole Home Mesh WiFi

EB210 Pro is EasyMesh-compatible. If you have any dead zones at home, just add another EasyMesh router/range extender to further form your whole home multi-gigabit mesh WiFi. No more searching for a stable connection.
