The CL1000 is a LCD KVM console that serves as the front-end for standard KVM switches. The CL1000 features an integrated 17" or 19” LED-backlit LCD panel, full keyboard, and touchpad in a 1U, rack-mountable, Slideaway™ housing.

Users who already have a switch can take advantage of the space saving and efficiency benefits of the CL1000 LCD KVM console without the unnecessary expense of having to purchase a KVM switch. This model provides convenient ‘at the rack’ console access to KVM switches already installed at your site.
