

ZOWIE FK2-DW mouse Gaming Right-hand RF Wireless 3200 DPI

Model: 9H.N4MBE.A2E

Manufacturer: BENQ

EAN: 4718755094200

Product Code: 1214224

R5,151

FK2 Wireless Mouse for Esports - Designed by Sports Science

Delivers Agile and
Precise Micro Adjustments

Agility

More Flexible Micro Adjustments

Lower Hump

The FK’s hump is lower than other mice. It creates more space between palm and mouse, allowing for more flexible micro adjustments when aiming at the enemy over longer distances or targeting a moving enemy.

Greater Range of Micro Adjustments

Sports science testing confirms that increasing the space between palm and mouse allows greater movement and thus more precise micro adjustments.

Shorter Aiming Time

Our tests show that the FK delivers faster aiming for shooting.

Faster Mouse Lifting

Sharper Angle. Faster Lifting.
In comparison to other mice, FK has a larger left and right tilt angle which together with the finger support points, makes it easier to apply upward force. It helps players lift the mouse faster and quickly transition to the next action.

Precision

Right-side Curve. More Accurate Shooting.
In contrast to others, the FK's right side curve enhances palm muscle activation for effective braking. This design results in greater control and improved performance during targeted flick shots.

Reliability
Enhanced receiver reduces signal interference
The enhanced receiver offers improved stability of the wireless signal and minimizes frame drops and stuttering stemming from wireless interference during gaming.

Others

The reception footprint of other receivers has no directionality making it difficult to determine the exact direction for optimum signal reception thus resulting in weaker signal transmission.

Others without enhance receiver

FK2-DW

The exclusive directional enhanced receiver increases the reception footprint toward the mouse which improves signal reception. A reduced range of reception at the back of the receiver can effectively minimize interference from signals originating in the rear.
