DDR3 SODIMM DRAM

The DDR3 generation of SODIMM modules is the perfect solution for those who want to upgrade their notebooks and laptops and at the same time prefer a reliable and quality solution that will provide fast data transfer while consuming low power consumption (1.35 V).

Ready to work

GOODRAM DDR3 SO-DIMM memory has 2 GB, 4 GB or 8 GB of memory in one module and is available only in Single Channel configuration. 1600 MHz clock frequency makes GOODRAM great choice, no matter what kind of task is needed to be done.

Lifetime warranty

All GOODRAM memory modules are manufactured in Poland (Europe) with highly selected components and undergo a multi-stage quality tests before setting off for a trip to retail stores. The Quality Control Department ensures that each module is perfectly prepared for many years of use, hence we guarantee our users a lifetime warranty.

Reliability and build quality

Thanks to the multi-stage quality control and meticulous testing of each manufactured GOODRAM memory, we are sure that our customers receive products with superior reliability and build quaity. All GOODRAM memory modules are backed by a lifetime nwarranty and free remote technical support.
