

Mini PC GMKtec G3S Intel N95 8GB 128GB

Model: G3S 8+128GB

Manufacturer: GMKTEC

EAN: 6972570964263

Product Code: 1218768

R7,262

GMKtec G3S Mini PC with Intel N95, 8GB, 128GB

The GMKtec G3S is an energy-efficient computer that packs immense capabilities into a compact case. It is powered by a quad-core Intel N95 processor (up to 3.4 GHz, 6 MB cache) and integrated Intel UHD graphics (up to 1200 MHz), which together ensure smooth and stable performance both in the office and at home. The device supports two 4K monitors via HDMI 2.0, features a fast 128 GB SSD, and offers 8 GB of DDR4 memory; thanks to its M.2 slots, storage capacity can be expanded up to 8 TB. Built-in Wi-Fi 5, Bluetooth 5.0, and Wake On LAN and Auto Power On features ensure convenience and a reliable connection in any situation. The device is compatible with Windows 10, Linux, and Ubuntu. The cooling system with a quiet fan maintains optimal operating temperatures without annoying noise.

Powerful Intel Alder Lake N95 Processor

The GMKtec G3S Mini PC features a quad-core Intel Alder Lake N95 processor, clocked at up to 3.4 GHz and equipped with 6 MB of cache. With a TDP of 15 W, this processor offers high energy efficiency and scores 2,902 points in the Geekbench 6 (Multi-Core) test, significantly outperforming the N97, N200, and Celeron N5095 processors. Thanks to this power, the computer easily handles everyday tasks, office applications, and high-quality multimedia, while maintaining smooth performance and system stability.

Fast and Stable Connectivity

Support for dual-band Wi-Fi 5 (2×2 2400 Mbps) ensures high data transfer speeds and a stable wireless connection, while the built-in 1000 Mbps Gigabit LAN RJ45 port enables lag-free wired networking. The device also supports Bluetooth 5.0, which offers three times the transmission speed, range, and resistance to interference compared to version 4.2. As a result, this mini PC is ideal for office work, as well as for using peripherals or transferring files between devices.

High Memory Performance and Extensive Expansion Capabilities

The computer features 8 GB of DDR4 SODIMM memory, ensuring fast system performance and smooth switching between applications. A 1 TB M.2 2242 SSD is provided for user data, which can be easily replaced or expanded. The device’s design supports two independent storage drives—M.2 2280 PCIe (up to 8 TB) and M.2 2242 SATA (up to 2 TB). Thanks to its well-thought-out design, installing an additional drive is quick and requires no special tools.

Ample Port Availability and Broad Compatibility

The device offers complete connectivity freedom. It features two HDMI ports (4K@60 Hz) that allow for simultaneous use of two monitors, as well as two USB 3.2 ports and one USB 2.0 port for connecting accessories and storage devices. A stable network connection is provided by a 2.5G RJ45 LAN port, while a 3.5 mm audio jack allows you to connect headphones or speakers. A 12V / 3A DC power port rounds out the features. This allows the computer to work with monitors, TVs, projectors, printers, audio devices, and NAS servers, creating a versatile work and entertainment station.

4K Display and Dual-Monitor Support

The integrated Intel UHD graphics chip enables smooth multimedia playback and a comfortable high-resolution computing experience. With two HDMI 2.0 ports, the computer supports two 4K@60 Hz monitors simultaneously, allowing for efficient workspace management and convenient multitasking. This solution works well for office work as well as for photo editing, video editing, and data analysis.

Well-thought-out design and effective cooling

The compact GMKtec G3S chassis was designed with performance and reliability in mind. Inside, it features high-end components, including 8 GB of DDR4 memory, fast M.2 2280 PCIe drives (up to 8 TB) and M.2 2242 SATA drives (up to 2 TB), as well as Wi-Fi 5 and Bluetooth 5.0 connectivity modules. The cooling system, featuring a fan and numerous ventilation openings, effectively dissipates heat, ensuring stable operation even under heavy loads. The entire unit is housed in a sturdy, modern-looking case with a minimalist design. Thanks to its compact dimensions, the computer can be placed directly on a desk or mounted behind a monitor using a VESA mount, which saves space and keeps things tidy.

Manufacturer	GMKTec
Model	G3S
Dimensions	114 × 106 × 42.5 mm
Case Material	Plastic
Weight	255 g
Processor	Intel N95
Max. clock speed	3.4 GHz
Power consumption	15 W
RAM type	DDR4 2666
RAM capacity	8 GB
eMMC	No
SSD	M.2 2242 SATA 128 GB (included), supports up to 8 TB / M.2 2280 – expansion, supports up to 8 TB / Total max. 16 TB
