Uperfect UGame C2 Pro 16" Monitor

The Uperfect UGame C2 Pro is a portable gaming monitor featuring a 16-inch QLED screen with a resolution of 2560 × 1600 (QHD) and a refresh rate of up to 240 Hz. The 16:10 aspect ratio provides additional workspace, while the 400 cd/m² brightness, wide color gamut of 102.8% Adobe RGB and 102.3% DCI-P3, and support for 1.06 billion colors all contribute to a detailed and stunning image. Adaptive Sync technology helps maintain smoothness in dynamic scenes, which fans of fast-paced games will particularly appreciate. The monitor also offers extensive connectivity options thanks to two USB-C ports, one mini HDMI port, and a 3.5 mm audio output.

QLED and Detailed QHD Image

With a resolution of 2560 × 1600, the Uperfect C2 Pro 16" accurately renders fine image details whether you’re gaming, working, or enjoying multimedia. The 188.68 PPI pixel density further enhances detail clarity, and the 16:10 aspect ratio provides more vertical space than the popular

16:9 format. The QLED panel features a wide color gamut—the monitor covers 102.8% of the Adobe RGB color space and 102.3% of DCI-P3, and displays 1.06 billion colors. A brightness of up to 400 cd/m² and a wide 178° viewing angle round out the screen’s capabilities.

240 Hz for Exceptional Smoothness

The 240 Hz refresh rate makes the monitor ideal for fast-paced games where smooth rendering of rapid motion is crucial. Successive frames are displayed at a high frequency, making racing games, FPS shooters, and action games appear smoother, while fast-moving objects remain clearer. The monitor’s response time is 9 ms. These specs make the UGame C2 Pro ideal as a secondary gaming monitor, whether at your desk or on the go.

Adaptive Sync – Fewer Image Distortions

Adaptive Sync technology synchronizes the monitor’s operation with the video source, reducing screen tearing and improving animation smoothness. This is particularly important during fast-paced gameplay, when the screen displays many changes in a short period of time. As a result, dynamic scenes remain more consistent and clear, which enhances comfort during longer gaming sessions. The monitor also supports FreeSync technology.

Portable Design, Convenient Setup

The Uperfect UGame C2 Pro weighs approximately 730 g and measures 354 × 240 × 13 mm, making it easy to take with you outside your home setup. The built-in stand makes it easy to set up the screen on a desk without needing an additional stand. The monitor is also VESA 75 × 75 mm compatible and uses M4 × 4 mm screw holes, allowing it to be mounted on a compatible mount or arm.

Laptop, console, Steam Deck – broad compatibility

The wide range of ports allows the monitor to be used in various setups. It features two fully functional USB-C ports that support video and audio transmission, as well as a mini HDMI port, allowing the C2 Pro to work with laptops, computers, consoles, and portable gaming platforms, among others. The monitor can therefore serve both as an additional screen for work and as a

display for gaming at home or on the go.

Sound Without Additional Speakers

Thanks to two built-in speakers, each with 1 W of power, you don’t need to connect an external audio system every time. A 3.5 mm AUX output is also available, allowing you to use headphones or other compatible audio devices. The monitor does not require the installation of additional drivers, which simplifies setting up your work or entertainment station.

Included in the package

- Monitor
- USB-C to USB-C cable x2
- Mini HDMI to HDMI cable
- Power adapter
- User manual
