GENESIS TORON 531

GENESIS TORON 531

Model: NSG-2117

Manufacturer: GENESIS

EAN: 5901969443981

Product Code: 1219593

R1,440

Meet the Genesis Toron - 531 - a headset that will let you hear every detail. It's an all-new, versatile model with 50-millimeter drivers tuned to give you the edge in any situation. And that's not all. Connect it to any platform, talk and play for hours thanks to a durable and comfortable design built for the discerning.

PAIN-FREE FOR HOURS

The Genesis Toron 531 is a closed around-the-ear design that will effectively isolate you from outside noises. Less unwanted noise = more focus on your game, and it doesn't stop there. Breathable and soft material on the inside of the headband will ensure optimal temperature and minimize the risk of sweating. Not to be outdone, the comfortable, leather-like memory foam earcups with a textile top layer - not only do they adjust to the user and remember the shape of the head, but also combine the best features of leather-like (sound attenuation) and fabric earcups (maximum comfort in contact with the skin). You'll also find an extra set of all-textile pads to support you on hot days. Add to that a stepped width adjustment and zero compression of any kind. Do you need anything more?

MULTIPLATFORM YOU'LL LOVE

Genesis Toron 531 is a multiplatform headset. This means that you can easily connect it to devices equipped with a 3.5mm connector. What's more, the fully detachable cable and microphone will make it easier for you to transport, and the additional controller will make it easier to control. You'll also find a splitter included, which will allow you to connect the headset to a computer equipped with a separate microphone and headphone jack.
