The iStorage datAshur PRO+C holds the distinction of being the world’s FIRST flash drive that has received the FIPS 140-3 Level 3 certification! It is a user-friendly USB 3.2 (Gen 1) Type-C flash drive (Type-C to Type-A adapter included) that combines ease of use with top-level security measures. It employs PIN protection and hardware encryption to safeguard your data to military-grade standards. Available in various capacities ranging from 32GB to 512GB, this innovative device ensures your information remains secure.

The drive’s advanced security features provide complete data security and guarantees maximum protection of your data at all times. Built into the drive is a rechargeable battery, allowing the user to enter an 8 -15 digit PIN via the on-board keypad before connecting the device to a USB port. The datAshur PRO+C cannot be accessed without the user’s unique PIN, giving users peace of mind that their data is safe from prying eyes if their drive is lost or stolen, as without the PIN, there’s no way IN!

All data stored on the datAshur PRO+C is encrypted using FIPS PUB 197 validated, AES-XTS 256-bit hardware encryption.

All components incorporated within the datAshur PRO+C are completely covered by a layer of super tough epoxy resin, which is virtually impossible to remove without causing permanent damage to the components.

The design of the datAshur PRO+C flash drive includes a rugged extruded aluminium sleeve that is dust and water resistant to IP57 rating, and crush resistant that protects your drive from physical damage whilst keeping your data ultra-secure.

Use it straight out of the box, the datAshur PRO+C does not require any software or drivers to be installed and is compatible with Windows, Mac, Linux, Chrome, Android, Thin Clients, and Embedded Systems. The datAshur PRO delivers drag and drop encryption, plug and play simplicity and can be used with any software. In plain and simple terms, without the PIN, there's no way in!
