R2,637

"Telephoning is everything" - that is the motto of the emporiaSIMPLICITY-LTE. This seniors' cell phone does not have a camera or any additional bells and whistles that could unnecessarily burden the device. This makes it particularly suitable for those who simply want to make calls safely and always be easily reachable.

And what do you need for optimal phone calls? First of all, the best phone quality - this is ensured by modern 4G mobile technology. We have also equipped the emporiaSIMPLICITY-LTE with extra-large

buttons that are illuminated and raised and have an excellent pressure point. Sounds good, doesn't it? But that's not all. There are also three speed dial buttons and you can choose the font size yourself. Thanks to the wide display, you can always see all your calls and thanks to the simple operation, everything works smoothly. The phone is IP54 certified, i.e. dust and splash-proof, and is particularly suitable for people who use a hearing aid (M4/T4). Other functions: LED flashlight, calendar, calculator, alarm clock or radio. The delivery also includes a charging cradle, headphones, a replaceable battery, an additional battery cover and the operating instructions.

With this senior citizen cell phone without a camera, you can also play it safe. What do we mean by that? You benefit from our patented emergency call button, which is located on the back of the device. In an emergency, you can use it to get help quickly.

When developing this seniors' cell phone without a camera, our designers paid particular attention to high-quality workmanship combined with a classy look. Making phone calls has never been easier - or more stylish.
