

LogiLink HD0062 video switch HDMI

Model: HD0062

Manufacturer: LOGILINK

EAN: 4052792074796

Product Code: 1221670

R1,438

The LogiLink 4K HDMI switch allows convenient switching between three HDMI input sources (video camera, DVD/Blu-ray player, game console, streaming box, etc.) via remote control, intelligent automatic detection or alternatively via switch on the switch itself. Annoying plugging of cables is a thing of the past. Thanks to Ultra HD (4K/60 Hz), you can experience media content in brilliantly sharp resolution with support for HDCP 2.2, HDR, CEC and 3D. The audio transmission in LPCM 7.1, DTS, Dolby Digital, DTS-HD Master Audio and Dolby TrueHD also leaves nothing to be desired.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
